NEW DIRECTIONS IN CBT

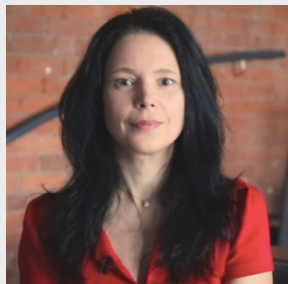

WEBINAR SERIES

Discover CBT for Psychosis: recovery is possible!

EVENT 4

Dr Douglas Turkington
World Renowned
Psychiatrist
MD, FRC, Psych

Dr Sara Tai
MSc, D.ClinPsy, CPsychol

**USING QUESTIONS AS A CONVERSATIONAL
APPROACH TO WORKING WITH PSYCHOSIS**

This webinar is for mental health professionals and friends and families of those affected by psychosis.

Key Learning Points

Learn how to ask questions as part of a flexible therapeutic approach to work with people who experience psychosis. You will learn different questioning styles including peripheral questioning, Socratic questioning, inference chaining and curious questions about conflict to facilitate reflection and recovery.

Teaching Modalities

Interactive Role Plays (70%) Didactic (30%)
